Given under our hand and seal this eighteenth day of February, in the year of our Lord one thousand nine hundred and four.

F. B. LEWIS,	}	Selectmen of Whitefield.
F. D. PAGE,		
J. N. BURNS,		

To the Citizens of Whitefield.

We respectfully submit for your consideration the annual report of the town of Whitefield, for the year ending February 15th, 1904.

Highways. As you will note the expense of maintaining this department the past year is in excess of the appropriation, and which seemed to us quite necessary in view of the fact that we were called upon to replace the Water street Bridge which was taken out by the ice, with a new one, and as this bridge was shortened up fifty feet, the expense was considerable but we think it will be a saving to the town in the future.

Macadamized Roads. Under the direction of the road agent that part of Union street extending from the B. & M. Railroad crossing to the Milk Factory was thoroughly macadamized, this section was selected in view of the fact that nearly all of the heavy teaming of the town passes over this piece of road, and what has been one of the worst roads in town we are pleased to report now one of the best.

Cemeteries. The appropriation of \$250.00 has been carefully expended in improving the appearance of the various cemeteries in town and has placed them in such shape that a little expense and care by those most interested should be sufficient to keep them in good order for some time to come.

Sidewalks. We have continued the system adopted last year and have replaced many of the old plank walks with crushed stone.

Provisions will have to be made the coming year to rebuild the walk on Main street near the residence of D. M. Aldrich, and the walk on Elm street should be extended from the residence of W. S. Libbey to the Dalton town line, some work will also be necessary on Union street.

Sewers. The cost of this department the past year have been very light, and we now see no need of very much money to be raised the coming year.

Forest Fires. During the dry season of last summer we were called upon to furnish help at the expense of the town, to extinguish the fires which were so prevalent, and while we as a town were much more fortunate than many of the surrounding towns, yet a word of warning and caution may not be out of place at this time, and the present laws are very stringent, and our interests demand that great care be taken in the setting of forest fires.

Town Hall. The interior of the town hall has been put in thorough repair this in connection with the new scenery placed in the hall last year should with proper care be all the expense necessary on the inside of the hall for some time to come, but new steps are required and the hall should be painted on the outside this year. The thanks of the town are due the young people for the entertainment they gave, the

proceeds of which were used towards defraying the expense incident to repair the hall.

Finances. We are pleased to be able to report that the financial condition of the town is in much better shape than a year ago, and while the statement of assets and liabilities only shows a decrease of \$840.11 in the net debt of the town, there should be added to that amount the sum of \$500.00 which we charge off on assets, the sum of \$200.00 which was paid for a new road machine, also the sum of \$277.33 it being the amount of the note given by the good roads commissioners in 1901 and assumed by the town at its annual meeting in 1903 and which was never reported against the town as a liability, and which we were authorized to issue a town note to take this one up and also to pay for the new road machine, both of which however have been paid for out of the current funds of the town.

To the itemized report we invite your attention.

Respectfully submitted.
